AT YOUR SERVICE

by Kim O'Donnell, Life Enrichment Director

Comprehensive Medical Services are Paramount to Everyone's Well-Being

Residents across Trezevant's campus enjoy a range of health services. Jeffrey Warren, MD serves as the campus medical director offering weekly onsite appointments for independent living residents. Guardian Pharmacy, an on-site provider, offers prescription fulfillment, compliance packaging, and medication management. Foot care, provided by Tom Ashbery, DPM, is available on the first Thursday of each month. Dr. Ashbery specializes in medical treatment of foot and ankle conditions. Functional Pathways offers a full range of rehabilitation services. These include physical therapy, occupational therapy, speech therapy and respiratory therapy. In addition to our fitness program and personal training options.

Trezevant will be expanding allied health services with some new additions and some returning clinicians. Dental Today, a mobile dental provider, will be offering full services beginning Thursday, April 6th. Common procedures such as cleaning, X-rays, fillings, and crowns may be done on-site. Dental Today offers membership plans and an appointment is required.

Returning to Trezevant is the Southern College of Optometry. Students, under the supervision of a medical doctor, will conduct vision and glaucoma checks along with general screenings.

Thrive Hearing and Tinnitus Solutions will offer comprehensive hearing exams, evaluation of hearing devices along with options for tinnitus sufferers.

There is a lot to staying healthy at any age and Trezevant's staff strives to bring the best to our clientele. For additional information on these services contact Life Enrichment or the Wellness Office.

BE WELL

by Rinnie Wood, Fitness Director

TREZEVANT FITNESS FOR EVERYONE!!!

Fitness Classes, Adventures, 1-on-1 Training and Solo Workouts to Meet You Where You Are...

Why do we offer 37 fitness classes every week at Trezevant, plus personal training, physical and occupational therapy? Why do we head out into the community on walks in new and familiar locations, and improve our brain function with Dr. Sharon Pollack and other challenges? Why incorporate meditation and breathing alongside more vigorous movement?

Here at Trezevant we offer this variety of wellness activities so that the needs and desires of every resident can be met. There are many components of fitness, including flexibility, endurance, balance, and strength. All deteriorate with age. Finding movement that allows improvement in these areas is critical to independence. Finding a way to move that is enjoyable is what we all want and need.

A March 1, 2023 New York Times article notes that exercise can stall muscle loss, cognitive decline and fatigue. In this article, National Institute on Aging gerontologist Chhanda Dutta states a familiar refrain "It's never too late to start exercising and it's never too early." Activities may be stimulating, relaxing, strengthening, balancing, or stretching, but please begin or extend your fitness journey today.

Join us and begin the road to better health today!
